

A great week has been had in the Grade 3 to 6 area. Students have been enjoying the sunshine at both recess and lunch on most days which has been great, some students even playing on the new soccer pitch which has dried up in the sun.

The **Room 7 and 8 students** (along with the Grade 4's from Room 10) have been getting ready for their camp to Halls Gap. Below is the 3/4 students going through the activities and other aspects with Mrs C. There is a lot of excitement and students can't wait for the night walk and abseiling plus many other activities.

The students in **Rooms 9 and 10** have been collating their poems (Haiku, Autobiographical, Colour and Limerick) so that they can be published and put into a booklet for other classes to read. They have been focusing on having all aspects of their writing pieces the same so they look 'professional'. They have also been looking at chance and probability in maths and played some fun 'learning' games such as 'Beetle'.

Room 11 have had a busy week undertaking maths activities with a focus on fractions and decimals, as well as writing stories from photo prompts. Below they are in the middle of a 'music' game where students must keep the beat.

Other activities such as woodwork have also been completed. Olivia and Tahlia have been working with Mr Storer to complete both a 'pencil box' and a foot stool that opens up for storage, they are very proud of their efforts.

Photo Time:

Liam proudly shows off his poem.

Room 9 work diligently on their writing.

Mr Dan teaches the Grade 5 students in Inquiry.
